Release Notes for Easy Content Solution 2025.2 Hotfix A

Bugfixes

Content

ABAP

- Updated rules "Debug ABAP programs with Replace" & "Transactions for user maintenance"
- Replaced "spool administration" rules in BC trees "Quick Audit" & "Technical Clients"

General

- One Identity Manager: Resolved possible error during reading of config parameters
- Separations Enforcer: Modified conversion of check for any field value
- XAMS: Fixed an error concerning conversion of rule settings, when rules are contained in the ruleset both as single rules and parts of SOD rules
